

SUNRAY EDUCATION GROUP

Comprehensive Program & Course Catalogue for Website Integration

1. Language & Communication Programs

English For Communication Skill (Level 1)

- Target Audience:** Absolute beginners, students, or working adults with minimal English exposure who want to build basic conversational confidence.
- Syllabus Context:** Basic greeting formulas, everyday vocabulary, essential phonetics, self-introductions, and simple sentence structures (present simple).
- Career & Life Use:** Breaks the barrier of speaking anxiety, enabling basic daily survival communication and establishing a foundation for advanced learning.
-

English For Communication Skill (Level 2)

- Target Audience:** Elementary learners who understand very basic English but struggle to sustain a full conversation or use appropriate tenses.
- Syllabus Context:** Past and future descriptions, situational interactions (shopping, traveling, dining), vocabulary expansion, and social interactive speaking drills.
- Career & Life Use:** Allows individuals to comfortably travel independently, interact with foreigners, and express clear opinions in social and basic professional environments.
-

English For Communication Skill (Level 3)

- Target Audience:** Intermediate learners looking to refine their fluency, expand idioms, and engage in complex discussions or corporate interactions.
- Syllabus Context:** Debating modern topics, complex grammatical structures (conditionals, perfect tenses), presentation skills, and professional networking language.
- Career & Life Use:** Prepares individuals for academic presentations, client handling, and career promotions in international organizations.
-

Business English (Level 1)

- Target Audience:** Entry-level professionals, interns, and university graduates looking to transition smoothly into an English-speaking corporate workspace.
- Syllabus Context:** Professional emails, workplace telephone etiquette, office vocabulary, fundamental business terms, and polite professional phrasing.
- Career & Life Use:** Enhances day-to-day office productivity, ensures polite corporate communication, and gives candidates an edge during job interviews.
-

Business English (Level 2)

- Target Audience:** Mid-level executives, team leaders, and business owners who need to negotiate, pitch, and present ideas effectively.
- Syllabus Context:** Business presentation delivery, professional negotiation models, advanced reporting, cross-cultural corporate communication, and corporate meeting management.
- Career & Life Use:** Enables professionals to secure global business partnerships, present data confidently to stakeholders, and manage international projects.
-

Foundation of Written English

- Target Audience:** Students and employees who face difficulties with spelling, core punctuation, and building basic, grammatically flawless sentences.
- Syllabus Context:** Parts of speech, sentence mechanics (subject-verb agreement), basic paragraph structure, avoiding common grammatical errors, and sentence variety.
- Career & Life Use:** Forms a foundation for all written work, ensuring academic papers and daily business messages are accurate and free from embarrassing mistakes.
-

Mastering Written English

- Target Audience:** Academic researchers, content writers, and professionals who need to draft sophisticated reports, essays, or persuasive business documents.
- Syllabus Context:** Advanced essay writing models, cohesive devices, academic referencing style, vocabulary enhancement, and structural editing techniques.
- Career & Life Use:** Enables the creation of compelling business proposals, academic publications, and precise legal or executive documentation.
-

Basic Japanese Course (N5)

- Target Audience:** Anyone interested in Japanese language and culture, or planning to study/work in Japan.
- Syllabus Context:** Hiragana and Katakana characters, basic Kanji, elementary grammar, daily expressions, and basic listening exercises.
- Career & Life Use:** Serves as the mandatory first milestone for passing the official JLPT N5 examination required for many academic or entry-level professional pathways in Japan.
-

Basic Chinese Language Course (HSK 1 & HSK 2)

- Target Audience:** Beginners looking to capture opportunities in global businesses, international trade, or academic exchanges with Chinese-speaking regions.
- Syllabus Context:** Pinyin pronunciation, basic Hanzi characters, fundamental vocabulary for daily life, essential conversation structures, and preparing for official HSK testing standards.
- Career & Life Use:** Creates enormous value in retail, logistics, international business negotiations, and opens doors to fully funded Chinese governmental academic scholarships.
-

2. Management & Leadership Programs

Business Management

- Target Audience:** Aspiring managers, entrepreneurs, and students looking for a comprehensive blueprint on how businesses operate successfully.
- Syllabus Context:** Principles of planning, organizing, leading, and controlling; organizational culture, financial planning baselines, and business ethics.
- Career & Life Use:** Provides foundational knowledge needed to confidently take over general supervisor roles or run an independent entrepreneurial venture efficiently.
-

Chain Management (Supply Chain & Operations)

- Target Audience:** Logistics personnel, procurement specialists, retail coordinators, and business operations staff.
- Syllabus Context:** Inventory control strategies, vendor relationships, logistics, distribution channels, and optimizing operational workflows to minimize costs.
- Career & Life Use:** Allows businesses to run with higher profit margins and equips employees to manage large-scale warehouse, retail, or import/export systems.
-

Strategic Management and Leadership

- Target Audience:** Senior executives, team directors, or business owners looking to steer their enterprise through complex market competition.
- Syllabus Context:** SWOT analysis, corporate vision planning, competitive strategy, change management frameworks, and leadership psychology.
- Career & Life Use:** Prepares individuals for C-suite roles (CEO, COO) by training them to formulate long-term sustainable growth models.
-

Human Resources Management

- Target Audience:** HR professionals, office administrators, and managers looking to handle employee relationships and talent acquisition flawlessly.
- Syllabus Context:** Recruitment strategies, compensation and benefits, performance appraisal systems, conflict resolution, and employee development frameworks.
- Career & Life Use:** Critical for building a high-performing corporate culture, reducing employee turnover, and managing corporate legal obligations effectively.
-

Sale and Marketing

- Target Audience:** Marketing executives, sales agents, brand managers, and independent small business owners.
- Syllabus Context:** Market research, consumer psychology, branding, marketing mix (4Ps), digital marketing strategy, and modern sales conversion closing strategies.
- Career & Life Use:** Directly impacts company revenue by training personnel to create high-converting promotional campaigns and loyal consumer bases.
-

3. Education & Pedagogy Programs

Early Childhood Care and Development (ECCD)

- Target Audience:** Preschool teachers, kindergarten staff, nursery administrators, and parents seeking scientific early development pathways.
- Syllabus Context:** Early milestones of children, designing play-based learning spaces, health and safety management, and emotional support foundations.
- Career & Life Use:** Opens rich career avenues in premium nursery centers, kindergarten academies, and community development child welfare projects.
-

Child Psychology

- Target Audience:** Educators, student counselors, social workers, and parents looking to understand behavioral patterns and cognitive processing in children.
- Syllabus Context:** Cognitive development theories (Piaget, Vygotsky), emotional regulation patterns, handling behavioral anomalies, and childhood trauma prevention.
- Career & Life Use:** Equips professionals to resolve student behavior issues scientifically, offering specialized consultation paths in schools and clinical centers.
-

Teaching English As A Second Language (TESL)

- Target Audience:** Aspiring or practicing English language teachers aiming to achieve professional global certification.
- Syllabus Context:** Language teaching methodologies (CLIL, Communicative Approach), lesson planning, language skill integration (4 macro skills), and modern assessment tools.
- Career & Life Use:** Provides the ultimate credentials needed to teach English professionally across private international language institutes and schools nationwide or abroad.
-

Teaching English to Young Learners (TEYL)

- Target Audience:** Primary school educators, language mentors, and home tutors targeting students aged 4 to 12.
- Syllabus Context:** Gamification of grammar, story-telling techniques, total physical response (TPR), phonics fun training models, and interactive language activities.
- Career & Life Use:** Enables teachers to keep young language classrooms highly engaged, joyful, and effective, making them highly sought-after in standard private primary setups.
-

Modern Teaching With AI

- Target Audience:** Tech-forward educators, curriculum designers, and institutional directors aiming to supercharge teaching efficiency.
- Syllabus Context:** AI tools for personalized lesson plan generation, automated quiz creation, designing visual assets using generative AI, and ethical boundaries of AI usage in schools.
- Career & Life Use:** Reduces administrative workload by up to 50%, allowing teachers to focus deeply on student mentoring while executing state-of-the-art interactive teaching.
-

Classroom Management

- Target Audience:** Teachers dealing with noisy classrooms, disruptive student behavior, or low engagement ratios.
- Syllabus Context:** Establishing classroom norms, student seating dynamic planning, positive behavioral enforcement structures, and time-management inside a lecture.
- Career & Life Use:** Guarantees a safe, stress-free, and productive teaching environment where students successfully digest learning objectives every session.
-

4. Applied Sciences & Technical Workplace Skills

General Psychology

- Target Audience:** Anyone seeking to understand the inner workings of human behavior, perception, motivation, and personality development.
- Syllabus Context:** Neurological baselines of behavior, memory mechanics, emotional theories, personality profiling, and social interaction influences.
- Career & Life Use:** Improves interpersonal intelligence, relationship building, leadership clarity, and provides critical entry insights across multiple professional fields like management or marketing.
-

Foundation of Environmental Science and Sustainability

- Target Audience:** NGO workers, environmental enthusiasts, engineering students, and corporate social responsibility (CSR) committee members.
- Syllabus Context:** Ecosystem dynamics, climate metrics, waste handling structures, renewable energy baselines, and sustainable global practices.
- Career & Life Use:** Prepares individuals for roles in green environmental agencies, sustainability project management, and drafting CSR programs for modern sustainable corporations.
-

Advanced Excel For Workplace

- Target Audience:** Data analysts, accountants, sales managers, administrators, and anyone dealing heavily with business reporting or data organization.
- Syllabus Context:** Advanced logical and lookup formulas (VLOOKUP, XLOOKUP, INDEX/MATCH), Pivot Tables and Charts, data validation arrays, and automated macro workflows.
- Career & Life Use:** Transforms raw complex data sets into valuable corporate insights, automating hours of manual spreadsheet data work into a single click.
-

Advanced Word and Powerpoint For Career Advantage

- Target Audience:** Corporate workers, secretaries, researchers, and professional trainers wanting their paperwork and slides to stand out visually and structurally.
- Syllabus Context:** Mastering Microsoft Word formatting layout rules, handling large referencing files, building custom PowerPoint dynamic masters, templates, data charts, and seamless transition morphs.
- Career & Life Use:** Ensures every internal or client-facing document and sales pitch presentation looks exceptionally elite, persuasive, and strictly executive.
-
